New release by **Rocky Nook**

## **Panobook 2011**

***Santa Barbara, CA*** — August 9, 2011

One contest, 553 participants, 2000 submissions, 40 countries, and 3 jurors... The summation of which is this volume filled with 156 winning panoramic photographs. Following on the success of the first two annual editions, *Panobook 2011* submerges us once again in a sea of all new, beautiful panoramas.

Filled with a stunning array of images by both amateur and professional photographers, this beautiful, hardcover book opens to 24 inches across two pages, allowing the reader to fully appreciate these expanded views and unique perspectives.

This collection of images provides an introduction to the best of today's panoramic photography and serves as inspiration for the interested photographer. Laymen and photographers alike are certain to be delighted as they embark on a tour of the world.

### **About the author:**

Kolor, the developer of Autopano and Panotour software, offers the world's leading solutions for panoramic imaging, image stitching, and virtual tours. Located in the Savoie region of France and founded in 2004, it wasn't long before Kolor became recognized for their innovation, technological advances, and commitment to the community. This is the third consecutive panoramic image contest that Kolor has hosted.

### **About Rocky Nook**

Rocky Nook's books are distributed worldwide by O'Reilly Media.

Rocky Nook was founded in early 2006 in Santa Barbara, California, and we are closely associated with dpunkt.verlag, a leading publisher of books on technology based in Heidelberg, Germany. The focus of Rocky Nook's publications is on digital photography. However, other areas related to modern photography, such as imaging and computer technology, are also important to us. Our mission is to demystify the cutting-edge developments in digital photography, providing practical instruction to enhance the skills of amateur and professional photographers. Our books offer in-depth information on technological advances in the digital photography workflow. We strive to support the efficiency and creativity of our readers, with the ultimate goal of fostering outstanding image quality.
