

Table of Contents

1	Introduction	1
2	Cameras and Operating Systems	3
2.1	Camera hardware	3
2.2	Processors and operating systems	5
2.3	The CHDK: What it is and how it works	5
2.3.1	History	5
2.3.2	How it works	6
2.3.3	What the CHDK can do for you	7
3	Installing the CHDK	11
3.1	Requirements	11
3.2	Does a CHDK exist for my camera?	11
3.3	Downloading the CHDK	12
3.4	Manual installation	13
3.5	The warranty question	14
4	Teach Your Camera New Tricks	17
4.1	Using menus	17
4.2	Customizing the user interface	18
4.2.1	OSD Codepage	18
4.2.2	Fonts	18
4.2.3	Colors	19
4.2.4	Organizing the screen	19
4.2.5	User menus	22
4.2.6	Grids	22
4.2.7	Miscellaneous Values	24
4.2.8	Customizing the DOF calculator	26
4.2.9	Other user interface options	27
4.3	Exposure	28
4.3.1	Overrides	28
4.3.2	Custom Auto ISO	31
4.3.3	Histogram	33
4.3.4	Zebra	35
4.3.5	High-speed photography	36

4.3.6	Night photography.....	38
4.3.7	Flash	40
4.3.8	Using curves	41
4.4	Focus	45
4.5	Shooting RAW	46
4.5.1	Basics.....	46
4.5.2	DNG.....	48
4.5.3	Other RAW parameters.....	50
4.5.4	Processing RAW images	51
4.5.5	In-camera RAW processing	52
4.5.6	More RAW processing	53
4.6	Bracketing	55
4.6.1	General bracketing notes.....	55
4.6.2	HDR and tone mapping	57
4.6.3	Focus stacking	60
4.7	Edge overlay	63
4.8	More video options.....	64
4.9	Remote control.....	66
4.9.1	CHDK remote control functions.....	66
4.9.2	Building a simple remote control	67
4.9.3	SDM functions.....	68
4.9.4	Extra hardware.....	69
4.9.5	Tethered shooting?.....	69
4.10	Utilities.....	70
4.10.1	File browser.....	70
4.10.2	Text file reader	71
4.10.3	Getting information about the camera	72
4.11	Novelty	73
4.11.1	Games.....	73
4.11.2	Flashlight	74
4.12	The CHDK configuration file.....	74
5	Scripting	77
5.1	Launching and configuring scripts	77
5.2	uBasic	79
5.3	uBasic primer	85
5.3.1	Variables.....	85
5.3.2	Assignments.....	85
5.3.3	Output	86
5.3.4	Conditional clauses	86
5.3.5	Case structures	87

5.3.6	Loops	88
5.3.7	Labels and GOTOs	89
5.3.8	Subroutines	90
5.3.9	Comments	91
5.3.10	Script structure	91
5.4	Lua primer	92
5.4.1	Variables	92
5.4.2	Strings	93
5.4.3	Tables	93
5.4.4	Assignments	94
5.4.5	Output	94
5.4.6	Blocks	95
5.4.7	Conditional clauses	95
5.4.8	Loops	96
5.4.9	Functions	99
5.4.10	Error handling	100
5.4.11	Comments	101
5.4.12	Script structure	101
5.4.13	Standard Libraries	101
5.5	CHDK commands	112
5.5.1	Button-related commands	112
5.5.2	Exposure-related commands	114
5.5.3	Focus-related commands	119
5.5.4	Zoom-related commands	120
5.5.5	Flash-related commands	121
5.5.6	Image-related commands	121
5.5.7	Time-related commands	122
5.5.8	Display-related commands	122
5.5.9	Image management commands	123
5.5.10	Camera state	124
5.5.11	Low-level commands (Lua only)	126
5.5.12	The library capmode.lua (Lua only)	127
5.6	Property Cases	128
5.7	Example scripts	139
5.7.1	Time machines	140
5.7.2	Bracketing	159
5.7.3	Motion detection	164
5.7.4	Exposure control	180
5.7.5	Remote control	182
5.7.6	Configuration switching	186
5.8	Script development	194

6	Advanced Techniques	197
6.1	Panoramas	197
6.2	HDR Panoramas	200
6.3	HDR videos	203
7	The Stereo Data Maker (SDM)	205
7.1	Installing the SDM	205
7.2	Restrictions	207
7.3	Additional functions	207
7.4	Operation	208
7.5	Remote control	209
7.6	Communications	211
7.6.1	USB upload	211
7.6.2	Serial communications	211
7.7	Stereo photography	212
7.7.1	Stereo photography with a single camera	213
7.7.2	Producing and viewing composite stereo images	217
7.7.3	Stereo focus stacking	217
7.7.4	Synchronized cameras	218
7.7.5	Synchronized flash	221
7.8	Digiscoping	222
7.9	Scripting	224
8	Kites, Balloons, and Multikopters	231
8.1	Kite Aerial Photography	231
8.2	Balloon-based photography	232
8.3	Motorized flying platforms	233
8.4	Other unattended operations	233
9	A Look across the Fence	235
9.1	Canon EOS CHDK	235
9.2	Canon 5D as a professional movie camera	235
9.3	Pentax hacks	236
	Appendix	237
A.1	Using cards with more than 4 GB capacity	237
A.2	Troubleshooting	239
A.3	Web links	241
A.4	Contributing to the CHDK	242
A.5	Bibliography	243
	Index	245
