<b>ACKNOWLEDGEMENTS</b> .....	<b>xi</b>	<b>4 VISUALIZATION</b> .....	<b>57</b>
<b>1 COMMUNICATION THROUGH PHOTOGRAPHY</b> .....	<b>1</b>	Step 1: Photographic Looking and Seeing.....	58
Enthusiasm .....	3	Step 2: Composing an Image.....	58
Judging Your Own Personal Response .....	10	Step 3: Envisioning the Final Print.....	60
<b>2 WHAT IS COMPOSITION?</b> .....	<b>15</b>	Step 4: Planning a Strategy for a Final Print.....	62
How the Human Eye Sees.....	16	How Your Eye Differs from Your Camera.....	63
Unified Thought .....	18	Alternative Approaches.....	64
Simplicity.....	18	<b>5 LIGHT</b> .....	<b>67</b>
Expressing Your Own Point of View.....	19	Looking at Light.....	69
Simplicity vs. Complexity.....	20	Exercises in Learning to See Light More Accurately... ..	70
<b>3 ELEMENTS OF COMPOSITION</b> .....	<b>25</b>	Light Determines Form .....	70
Contrast and Tone .....	26	Types of Lighting/Quality of Light .....	75
Line.....	31	Light as Seen by the Eye and by Film or Sensors, and the Inverse Square Law .....	78
Form.....	35	<b>6 COLOR</b> .....	<b>81</b>
Line, Form, Contrast, and Emotion.....	36	The Color Wheel and Color Sphere.....	85
Pattern.....	37	Color Composition.....	86
Balance .....	38	Color and Emotion.....	88
Movement .....	39	Color Contrast and Tone .....	90
Positive/Negative Space .....	41	Choosing A Color Film .....	91
Texture .....	42	Color Digital Methods .....	92
Camera Position .....	42	Light and Color Control .....	93
Focal Length of Lens and Cropping .....	45	Subjectivity and Mood of Color.....	96
Depth of Field.....	46	In Summary .....	98
Shutter Speed.....	48	<b>7 FILTERS</b> .....	<b>101</b>
Relationships .....	49	Black-and-White Filters .....	102
Involvement with the Scene .....	51	Examples with a Hypothetical Landscape .....	103
Rules, Formulas, and Other Problems and Pitfalls .....	52	Contrast Control with Filters.....	105
		Digital Filtration for Black-and-White.....	106
		Infrared Film and Filters .....	108

Filters for Color Images . . . . .	108		
Neutral Density and Polarizing Filters . . . . .	111		
Problems Associated with Polarizers. . . . .	113		
<b>8 THE ZONE SYSTEM OF EXPOSURE FOR FILM . . . . .</b>	<b>115</b>		
A Brief Overview . . . . .	116		
Film's Response to Light: Building the Zone System . . . . .	116		
Translating Negative Densities to Print Tonalities . . . . .	117		
The Light Meter—How it Works. . . . .	120		
Review of Negative Exposure Procedure . . . . .	121		
Using the Zone System to Depart from Reality . . . . .	122		
The Zone System for Color . . . . .	123		
The Zone System and the Inverse Square Law. . . . .	126		
In Summary . . . . .	126		
<b>9 THE BLACK-AND-WHITE NEGATIVE AND CONTRAST CONTROL—THE EXTENDED ZONE SYSTEM . . . . .</b>	<b>129</b>		
Chapter 9 Overview . . . . .	129		
The Negative During Development . . . . .	130		
The Bellows Analogy . . . . .	132		
Putting Higher Zones to Work . . . . .	134		
Reciprocity Failure. . . . .	135		
Examples of Decreasing and Increasing Contrast. . . . .	137		
The Exposure/Density Curve and Zone 4 Shadow Placement . . . . .	140		
Differences Between Photography and Sensitometry: Texture vs. Tone and Zone 4 Shadow Placement. . . . .	141		
Pre-Exposure . . . . .	142		
Developing the Exposed Negative . . . . .	143		
Explanation of Compensating Development . . . . .	148		
Two-Solution Compensating Development. . . . .	148		
Development Procedures for Sheet and Roll Film. . . . .	150		
The Zone System and Roll Film . . . . .	152		
Negative Materials and Developers . . . . .	154		
<b>10 THE PRINT . . . . .</b>	<b>159</b>		
Black-and-White Enlarging Papers . . . . .	160		
Variable Contrast vs. Graded Papers . . . . .	161		
Fiber Base Papers vs. Resin Coated (RC) Papers. . . . .	162		
Black-and-White Paper Developers . . . . .	162		
Making Contact Proof Prints. . . . .	163		
Preliminary Work Toward a Final Print . . . . .	164		
Make Test Prints, Not Test Strips . . . . .	165		
Two Solution Development for Graded and Variable Contrast Papers. . . . .	168		
Dodging and Burning. . . . .	168		
Integrating the Entire Process: Visualization, Exposure, Development, and Printing . . . . .	170		
Burning with Variable Contrast Papers . . . . .	174		
Advanced Darkroom Techniques . . . . .	174		
Inspection, Evaluation, and the Myth of “Dry-Down”. . . . .	183		
Potassium Ferricyanide Reducing (Bleaching) . . . . .	185		
Final Fixing of the Image . . . . .	190		
Local vs. Overall Contrast Control. . . . .	191		
Scale . . . . .	192		
Selenium Toning Prints. . . . .	193		
Other Toners. . . . .	194		
Chemical Coloration . . . . .	195		
Full Archival Processing of Prints . . . . .	196		
Toning, Intensifying, and Reducing Negatives . . . . .	197		
Cold, Neutral, and Warm Tone Papers. . . . .	198		
Review of Contrast Controls . . . . .	198		
Color Printing. . . . .	200		
Color Contrast Reduction Masking. . . . .	201		
Masking to Alter Color Intensities . . . . .	202		
The Shadow Mask. . . . .	203		
Spotting and Rebalancing Color for Color Prints. . . . .	204		
Washing and Drying Color Prints . . . . .	204		
Achieving Proper Color Balance. . . . .	205		

<b>11 THE DIGITAL ZONE SYSTEM</b> .....	<b>207</b>	<b>16 THOUGHTS ON CREATIVITY</b> .....	<b>301</b>
