

Table of Contents

	Preface	xvii
	Introduction	xix
1	Test Basics	1
	1.1 Introduction	1
	1.2 Testing in the Software Lifecycle	2
	1.3 Sequential Lifecycle Models	4
	1.4 Iterative or Incremental Lifecycle Models	6
	1.5 Spiral Lifecycle Models	8
	1.6 Test Levels	9
	1.6.1 Two Case Studies of Integrating Testing into the Lifecycle	12
	1.6.2 Testing in the Software Lifecycle Exercise	14
	1.6.3 Testing in the Software Lifecycle Debrief	14
	1.7 Specific Systems	17
	1.7.1 Case Study of a System of Systems Project	19
	1.7.2 Safety-Critical Systems	21
	1.8 Metrics and Measurement	23
	1.8.1 Metrics and Measurement Exercise	27
	1.8.2 Metrics and Measurement Debrief	27
	1.9 Ethics	28
	1.10 Sample Exam Questions	30
2	Testing Processes	33
	2.1 Introduction	34
	2.2 Test Process Models	35
	2.3 Test Planning and Control	35
	2.3.1 Test Planning and Control Case Study	37

2.4	Test Analysis and Design	40
2.5	Test Implementation and Execution	41
2.5.1	Test Execution	43
2.5.2	Case Study of Test Execution Preconditions	44
2.5.3	BS 7925/2 Standard	48
2.6	Evaluating Exit Criteria and Reporting	50
2.7	Test Closure Activities	53
2.7.1	Two Case Studies of Test Closure	55
2.7.2	Test Closure Activities Exercise	58
2.7.3	Test Closure Activities Exercise Debrief	58
2.8	Sample Exam Questions	59
3	Test Management	61
3.1	Introduction	62
3.2	Risk-Based Testing and Failure Mode and Effects Analysis ...	63
3.2.1	Characteristics and Benefits of Risk-Based Testing ...	66
3.2.2	The History of Risk-Based Testing	68
3.2.3	How to Do Risk-Based Testing	71
3.2.4	The Level of Risk	73
3.2.5	Controlling the Risks	76
3.2.6	Project Risks	76
3.2.7	Two Industry Standards and Their Relation to Risk ...	79
3.2.8	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 1	83
3.2.9	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 1 Debrief	83
3.2.9.1	Test-Related Project Risks	83
3.2.9.2	Other Project Risks	87
3.2.10	Risk Identification and Assessment Techniques	88
3.2.11	Categories of Quality Risks	89
3.2.12	Documenting Quality Risks	93
3.2.13	Quality Risk Analysis Using ISO 9126	95
3.2.14	Quality Risk Analysis Using Cost of Exposure	97
3.2.15	Quality Risk Analysis Using Hazard Analysis	98
3.2.16	Determining the Aggregate Risk Priority	99

3.2.17	Stakeholder Involvement	101
3.2.18	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 2	102
3.2.19	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 2 Debrief	103
	3.2.19.1 Project Risk By-Products	108
	3.2.19.2 Requirements Defect By-Products	109
3.2.20	Failure Mode and Effect Analysis	109
3.2.21	Quality Risk Analysis Using Failure Mode and Effect Analysis	111
3.2.22	Determining the Risk Priority Number	113
3.2.23	Benefits, Costs, and Challenges of FMEA	115
3.2.24	Case Study of FMEA	116
3.2.25	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 3	117
3.2.26	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 3 Debrief	119
3.2.27	Risk Based Testing and the Testing Process	126
3.2.28	Risk-Based Testing throughout the Lifecycle	128
3.2.29	Risk-Based Testing in the Fundamental Test Process	130
3.2.30	Challenges of Risk-Based Testing	133
3.2.31	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 4	138
3.2.32	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 4 Debrief	138
3.2.33	Another Case Study of FMEA	140
3.2.34	Risk-Based Testing and Test Control	142
3.2.35	Risk-Based Test Results Evaluation and Reporting	144
3.2.36	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 5	147
3.2.37	Risk-Based Testing and Failure Mode and Effect Analysis Exercise 5 Debrief	147

3.3	Test Management Documentation and Test Plan Documentation Templates	152
3.3.1	Test Policy Documents	154
3.3.2	Test Strategy Documents	155
3.3.3	Types of Test Strategies	158
3.3.4	Test Plan Templates	161
3.3.5	The Other IEEE 829 Templates and How They Relate to Test Planning Documents	164
3.3.6	Master Test Plan Documents	170
3.3.7	Detail Test Plan Documents	172
3.3.8	Case Study of a Test Plan and Deviations from It	172
3.3.9	Another Case Study, of a Master Test Plan	175
3.3.10	A Detailed Case Study, of a Test Plan for a Simple PC Application	176
3.3.11	Test Management Documentation and Test Plan Documentation Templates Exercise	179
3.3.12	Test Management Documentation and Test Plan Documentation Templates Exercise Debrief	180
3.4	Test Estimation	184
3.4.1	Factors Affecting Estimation	185
3.4.2	Estimating Techniques	189
3.4.3	Using Industry Averages	192
3.4.4	Test Point Analysis	193
3.4.5	Negotiation and Reducing Test Scope	197
3.4.6	Test Estimation Exercise	198
3.4.7	Test Estimation Exercise Debrief	199
3.5	Scheduling Test Planning	205
3.5.1	A Case Study in Early Test Planning	207
3.6	Test Progress Monitoring and Control	211
3.6.1	Product Risk Metrics	212
3.6.2	Defect Metrics	213
3.6.3	Test Case (or Procedure) Metrics	217
3.6.4	Test Progress Monitoring and Control Exercise 1 ...	224

3.6.5	Test Progress Monitoring and Control	
	Exercise 1 Debrief	226
3.6.6	Test Coverage Metrics	227
3.6.7	Risk Coverage	229
3.6.8	Use of Metrics	230
3.6.9	Two Case Studies of Test Reporting	235
3.6.10	Test Progress Monitoring and Control Exercise 2 ...	237
3.6.11	Test Progress Monitoring and Control	
	Exercise 2 Debrief	237
3.7	Business Value of Testing	242
3.7.1	Cost of Quality	244
3.7.2	Other Values for Testing	247
3.7.3	Business Value of Testing Exercise	248
3.7.4	Business Value of Testing Exercise Debrief	248
3.8	Distributed, Outsourced, and Insourced Testing	250
3.8.1	Specific Distributed, Outsourcing, and	
	Insourcing Testing Issues	254
3.8.2	CMM and Testing	257
3.8.3	Case Studies of Distributed Testing	259
3.9	Test Management Issues	260
3.9.1	A Case Study in Managing Exploratory Testing	266
3.9.2	System of Systems Issues	268
3.9.3	Safety-Critical System Issues	270
3.10	Nonfunctional Testing Issues	272
3.10.1	Tools and Hardware Requirements	274
3.10.2	Organizational and Security Considerations	278
3.11	Sample Exam Questions	279
4	Test Techniques	291
5	Tests of Software Characteristics	295
6	Reviews	299
6.1	Introduction	300
6.2	The Principles of Reviews	300
6.2.1	Formal and Informal Reviews	302
6.2.2	Case Study of an Informal Review	304

6.3	Types of Reviews	306
6.4	Introducing Reviews	310
6.4.1	Defect Removal Effectiveness of Reviews	312
6.4.2	Two Review Case Studies	313
6.4.3	Introducing Reviews Exercise 1	317
6.4.4	Introducing Reviews Exercise 1 Debrief	318
6.4.5	Introducing Reviews Exercise 2	319
6.4.6	Introducing Reviews Exercise 2 Debrief	319
6.5	Success Factors for Reviews	323
6.5.1	Revisiting an Earlier Case Study	327
6.5.2	IEEE 1028 Standard for Reviews	328
6.6	Sample Exam Questions	329
7	Incident Management	333
7.1	Introduction	333
7.2	When Can a Defect Be Detected?	334
7.3	Defect Lifecycle	335
7.3.1	Defect Lifecycle Exercise	338
7.3.2	Defect Lifecycle Exercise Debrief	339
7.4	Defect Fields	340
7.4.1	Defect Fields Exercise	347
7.4.2	Defect Fields Exercise Debrief	348
7.5	Metrics and Incident Management	350
7.5.1	Metrics and Incident Management Exercise	352
7.5.2	Metrics and Incident Management Exercise Debrief	353
7.6	Communicating Incidents	354
7.7	Sample Exam Questions	355
8	Standards and Test Process Improvement	357
8.1	Introduction	358
8.2	Standards Considerations	359
8.3	Test Improvement Process	365
8.4	Improving the Test Process	369
8.4.1	A Generic Process Improvement Framework	370
8.4.2	Case Study: Results of a Test Assessment	372

8.5	Improving the Test Process with TMM	374
8.6	Improving the Test Process with TPI	378
8.7	Improving the Test Process with CTP	384
8.8	Improving the Test Process with STEP	391
8.9	Capability Maturity Model Integration, CMMI	393
8.10	Test Improvement Process Exercise	397
8.11	Test Improvement Process Exercise Debrief	398
8.12	Sample Exam Questions	402
9	Test Tools and Automation	405
9.1	Introduction	405
9.2	Test Tool Concepts	406
9.2.1	Test Automation Costs	408
9.2.2	Test Automation Risks	409
9.2.3	Test Automation Benefits	412
9.2.4	Test Automation Strategies	414
9.2.5	Case Study in Test Automation Strategy	415
9.2.6	Test Tool Integration and Scripting	417
9.2.7	Case Study of Integrated Test Tools	419
9.2.8	Test Tool Classification	421
9.3	Test Tool Categories	424
9.3.1	Test Management Tools	424
9.3.2	Test Execution Tools	426
9.3.3	Keyword-Driven Automated Test Execution	426
9.3.4	Case Study of Test Execution Objectives	428
9.3.5	Debugging and Troubleshooting Tools	430
9.3.6	Fault Seeding and Fault Injection	430
9.3.7	Static Analysis Tools	431
9.3.8	Dynamic Analysis Tools	431
9.3.9	Performance Testing Tools	432
9.3.10	Web Tools	433
9.3.11	Simulator and Emulators	434
9.3.12	Case Study of Custom Tool Development	435
9.4	Sample Exam Questions	436

10	People Skills and Team Composition	439
10.1	Introduction	440
10.2	Individual Skills	440
10.2.1	Testing Skills	442
10.2.2	Technical and Software Skills	444
10.2.3	User, Business, and Domain Skills	445
10.2.4	Skills Inventory and Management	446
10.2.5	Individual Skills Exercise	451
10.2.6	Individual Skills Exercise Debrief	451
10.3	Test Team Dynamics	455
10.3.1	Test Team Dynamics Exercise	462
10.3.2	Test Team Dynamics Exercise Debrief	463
10.4	Fitting Testing within an Organization	464
10.4.1	On Using Different Mixes of Independence	468
10.4.2	Outsourcing as Independent Testing	470
10.4.3	Case Study of Mixed QA Independence Options	471
10.5	Motivation	473
10.5.1	Metrics and Motivation	475
10.5.2	Case Studies of Motivating and Demotivating Comments	475
10.6	Communication	477
10.7	Sample Exam Questions	479
11	Preparing for the Exam	483
11.1	Learning Objectives	483
11.1.1	Level 1: Remember (K1)	484
11.1.2	Level 2: Understand (K2)	484
11.1.3	Level 3: Apply (K3)	485
11.1.4	Level 4: Analyze (K4)	486
11.1.5	Where Did These Levels of Learning Objective Come From?	486
11.2	ISTQB Advanced Exams	487
11.2.1	Scenario-Based Questions	490
11.2.2	On the Evolution of the Exams	492

Appendix

A—Bibliography	495
Advanced Syllabus Referenced Standards	495
Advanced Syllabus Referenced Books	495
Other Referenced Books	497
Other References	498
B—HELLOCARMS The Next Generation of Home Equity Lending ...	499
Table of Contents	500
II Versioning	501
III Glossary	502
000 Introduction	503
001 Informal Use Case	505
003 Scope	507
004 System Business Benefits	508
010 Functional System Requirements	509
020 Reliability System Requirements	514
030 Usability System Requirements	515
040 Efficiency System Requirements	516
050 Maintainability System Requirements	517
060 Portability System Requirements	518
Acknowledgement	519
C—Answers to Sample Questions	521
Index	523
